

# Foundational Public Health Services Gap Analysis Project

Institute of Public Policy  
University of Missouri

*Project made possible with funding from the Missouri Department of Health and Senior Services (#DH230052945).*

## Project Overview

### Project Purpose and Goals

The Gap Analysis estimates state investment needs for full foundational public health services implementation.

### Collaboration and Participation

Participation from local public health agencies and partners ensures accuracy, transparency, and statewide engagement in the project.

### Important Timelines

FY2025 training starts January 2026 with a May 1 data submission<sup>1</sup> deadline and final report due December 2026.

### Early Reporting<sup>1</sup>

Agencies with non-calendar fiscal years are encouraged to start the FY2025 Gap Analysis early to ensure timely and accurate reporting.

## Action Items to Prepare for FY2025 Gap Analysis

### Confirm Point of Contact

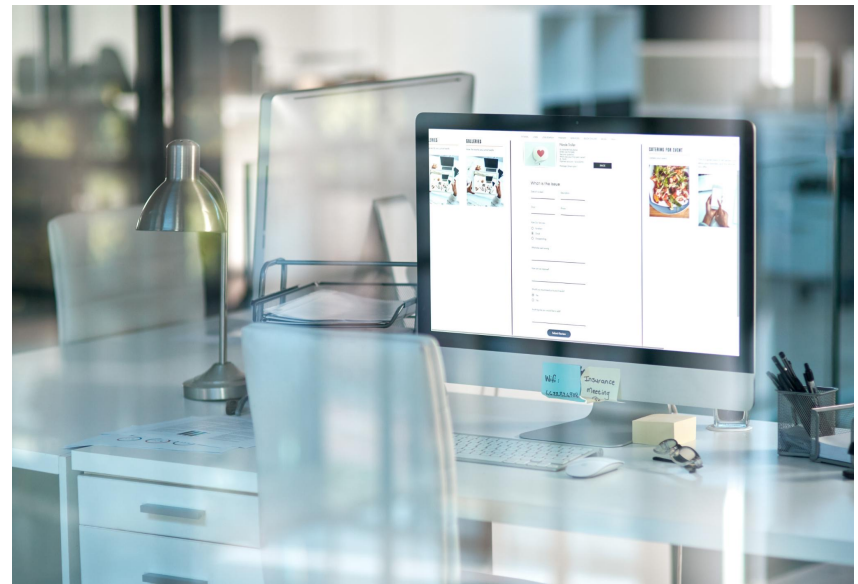

Agencies should verify and update their primary contact to ensure timely communication and resource access.

### Register for Training

Register early for FY2025 training sessions starting January 12, 2026. The FY2025 Gap Analysis tool and training materials will be available on our Canvas site in early January.

### Technical Assistance

Beginning in January 2026, the FPHS Gap Analysis Team will be available by appointment to assist LPHAs in completing data collection.

## Overview of Training Sessions
